

LIBERTY HILL ACADEMY

Our mission is to provide a safe, structured, environment, which enables students to grow socially, emotionally, and academically.

Through staff, family, and community involvement, we foster the development of skills which promote students' independence and future success.

Our school believes that every student can learn and make progress. We also believe that children must have the opportunity to develop into their fullest potential.

Our primary goal is to provide children with educational and therapeutic opportunities that will enhance his or her own personal growth.

The success to our program is the highly structured environment that we provide.

Within each program exists a management system developed and based upon research conducted on working with children with special needs.

Our programs are tailored to assist the student with behavioral, emotional, and academic needs in order to succeed in the school environment.

Our staff is well trained in crisis management techniques. Administration is available to provide support to students, families, and teachers.
